

*Town of  
Woodbury*

Dear Woodbury Residents,

Below is some information recently provided by Orange & Rockland Utilities, Inc.

In accordance with the New York Public Service Commission requirements, Orange and Rockland has updated its Electric Emergency Response Plans. Please find below a link to the updated plan that went into effect August 13, 2021. There were no changes to the plan other than the filing date. This was done at the request of the PSC to align the filing date of all utilities in New York.

The plan can be accessed through this link [ORU Electric Emergency Response Plan](#) located on the New York State Public Service Commission's web site.

Continue to stay safe,

Supervisor Frank J. Palermo
